

If You'd Like To Give

My campaign is essentially self-funded. I've not pursued the PAC community, outside State dark money sources or others except those individuals who personally want to contribute. I've also not opened an electronic means of fund raising after seeing the abuse taking place with ActBlue and the nefarious means that fraudulent funds can find their way into campaign donations.

As such, I'm providing the following mailing address to those who'd are moved to contribute to my efforts. With much appreciation, I thank those providing support.
